

# PRINCESS FORT INSTRUCTIONS

## CONSTRUCTION FORT PARTS

32 Pink Connectors

67 Pink Poles

2 Red Lights

## USING THE CONSTRUCTION FORT PARTS

### 1 "X" Mark

Look on the connector to find the "+" for the top and the bottom of the connector.

### 2 Top View

If you want to build a structure with angles you will need to create a solid base. Line up the first 2 poles as shown in the drawing.

### 3 Top View

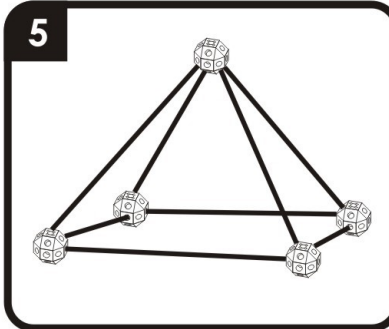

To create a square base for your structure attach connectors to the first poles and add another pole to another connector lining it up as shown in #2.

### 4 Top Bottom

Once you have a base (whether it is square or has many sides) you can start adding poles to create angles. Make sure your base is created with the top and bottom "+" in the correct place.

### 5 Top Bottom

Now you can add poles in many angles to create different structures, like a pyramid, an igloo, or even a rocket.

NOW THAT YOU KNOW THE BASICS, YOU CAN NOW BUILD CUSTOM FORTS, CASTLES & MORE

### SAFETY WARNINGS: PLEASE READ BEFORE USING PRODUCT

Always supervise your children when they are playing with this toy.

- NEVER allow your child to climb or stand on this product.
- To ensure the item is safe to play with please inspect the pieces before each use and discontinue use if any pieces are broken or cracked in any manner. Please dispose of that piece in an appropriate manner.
